

I am writing in opposition to the proposed expanded use of LPFM services. I am currently an avid listener to K-LOVE radio. The service that K-LOVE provides is indispensable (I listen to no other radio stations)! The effect of K-LOVE's displacement to myself, my children and those in my community that I also know listen to this station exclusively (and who agree with beliefs I am expressing), would be detrimental to the values we are trying to instill in our children! The services provided by K-LOVE are dedicated to the public interest; concerning values of family, morality and ethnic decency! The loss of K-LOVE from our air-waves would leave an irreplaceable and irresponsible void in the listening choices left available! This cannot be allowed to happen!
